Both warranty options cover parts and labor if overhaul is completed by a Mack dealer. Warranty labor is not covered if overhaul is not completed by a Mack dealer. <sup>1</sup>A Mack dealer must perform the labor to be eligible for the 3-Year Extended Coverage. <sup>2</sup>Double idler gear receives warranty indicated only if it was replaced with a new one at time of overhaul. <sup>3</sup>EPA'07 timing gears are only covered if double idler gear is replaced. EPA'04 and EPA'10 timing gears (including double idler gear) are covered if within tolerance when tested. <sup>4</sup>MP7, MP8 & MP10 REMACK Basic (3/4) Engines include injectors. <sup>5</sup>Oil Pumps are included with REMACK Basic (3/4) Engines. If added as an option in Levels 1-3, warranty is shown. If not replaced at time of service in Levels 1-3, there is no additional coverage for oil pumps. **Note:** Mileage and time are from date of service. All "Covered Components" must pass inspection or be replaced at the proper intervals as prescribed by a Mack dealer to qualify for continued coverage. All warranty coverage is subject to the Limitations and Exclusions contained in the relevant Warranty Certificate, which is available upon request.
